ABOUT US

MOX INDUSTRIES is a professional manufacturer of high-quality Sports Wear, Sports Uniforms, Martial Arts Wear, and Gloves. We specialize in turning ideas into exceptional products by providing complete manufacturing solutions for brands, teams, retailers, and organizations around the world.

Our strength lies in manufacturing excellence and attention to detail. We have advanced production facilities, modern machinery, and a skilled team that ensures every product is made to perfection. From fabric selection to final stitching, every stage is managed in-house to deliver unmatched quality and consistency.

We work with businesses and brands worldwide, helping them build their own identity through custom manufacturing. Whether you need your own brand labels, custom designs, private labeling, or full production support, our team is here to bring your vision to life with unmatched quality and reliability.

At MOX Industries, we believe in long-term partnerships. Your success is our success, and we are committed to being the manufacturing partner you can trust — delivering quality products, on time, every time.

OUR MISSION

To provide world-class manufacturing solutions that empower brands to create high-quality sports products and grow their business with confidence.

OUR VISION

To be a globally trusted manufacturing partner, recognized for our quality, innovation, and commitment to building successful brands through excellence in production.

OUR VALUES

- Quality
- Integrity
- Innovation
- Teamwork
- Long-Term Partnerships
- Customer Success

WHAT WE DO

We manufacture custom Sports Wear, Sports Uniforms, Martial Arts Wear, and Gloves for your brand. From design and sampling to full-scale production, we provide end-to-end solutions to help your brand stand out.

At MOX INDUSTRIES, we don't just make products, we help you build your brand through quality manufacturing.

OUR PRODUCTION

We use advanced technology and skilled craftsmanship to produce high-quality sportswear and gear. From fabric to final product, every step is done with precision and care.

01 PATTERN MAKING

Patterns are created with precision based on measurements and design specifications for perfect fit.

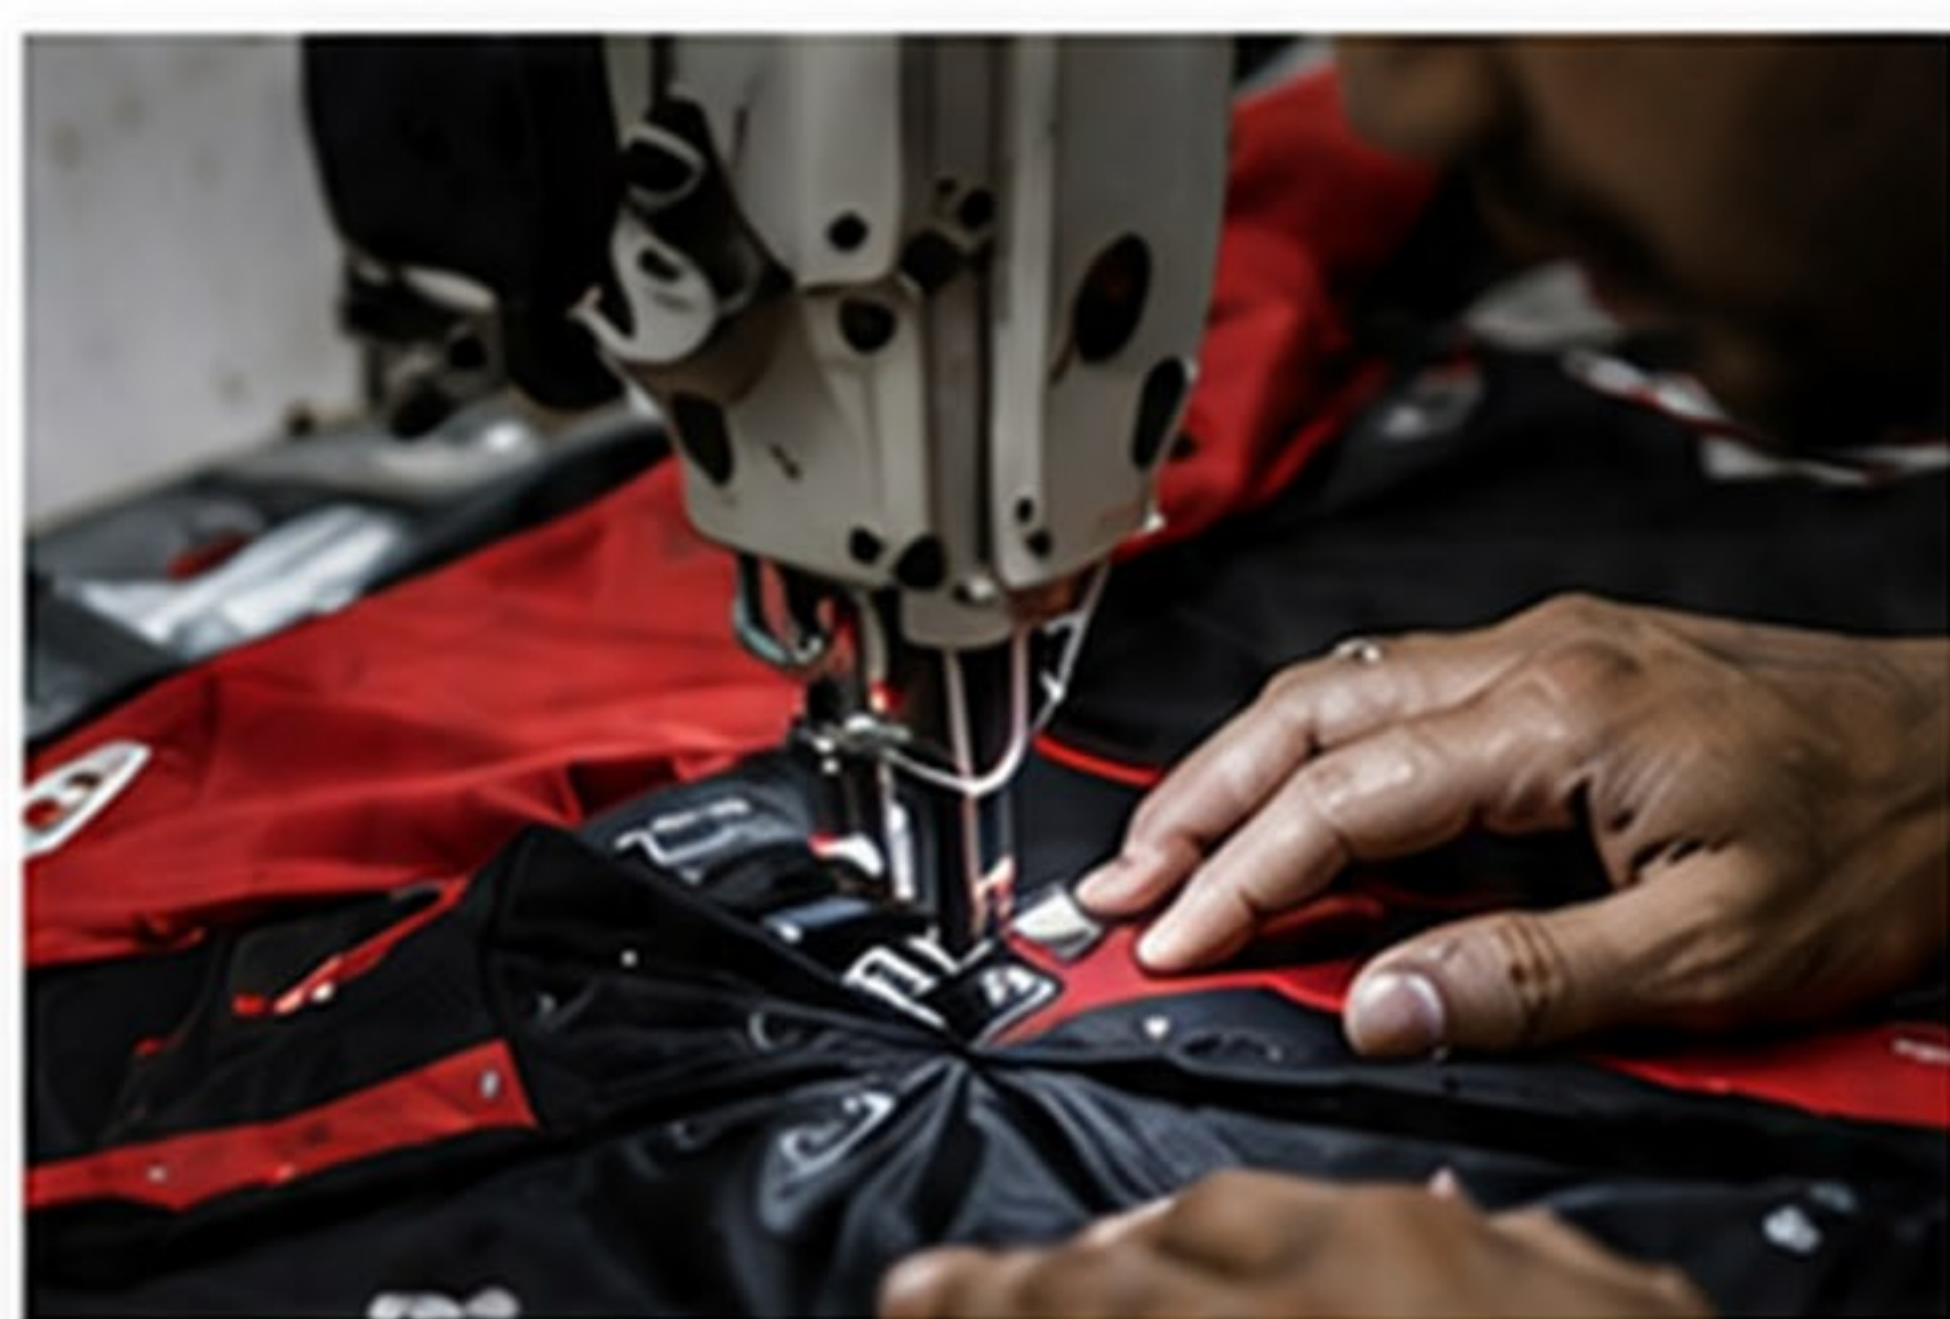

02 FABRIC INSPECTION

High-quality fabrics are carefully inspected to ensure durability, comfort, and performance.

03 PRECISION CUTTING

Advanced cutting machines and skilled operators ensure accurate cutting for perfect fit and quality.

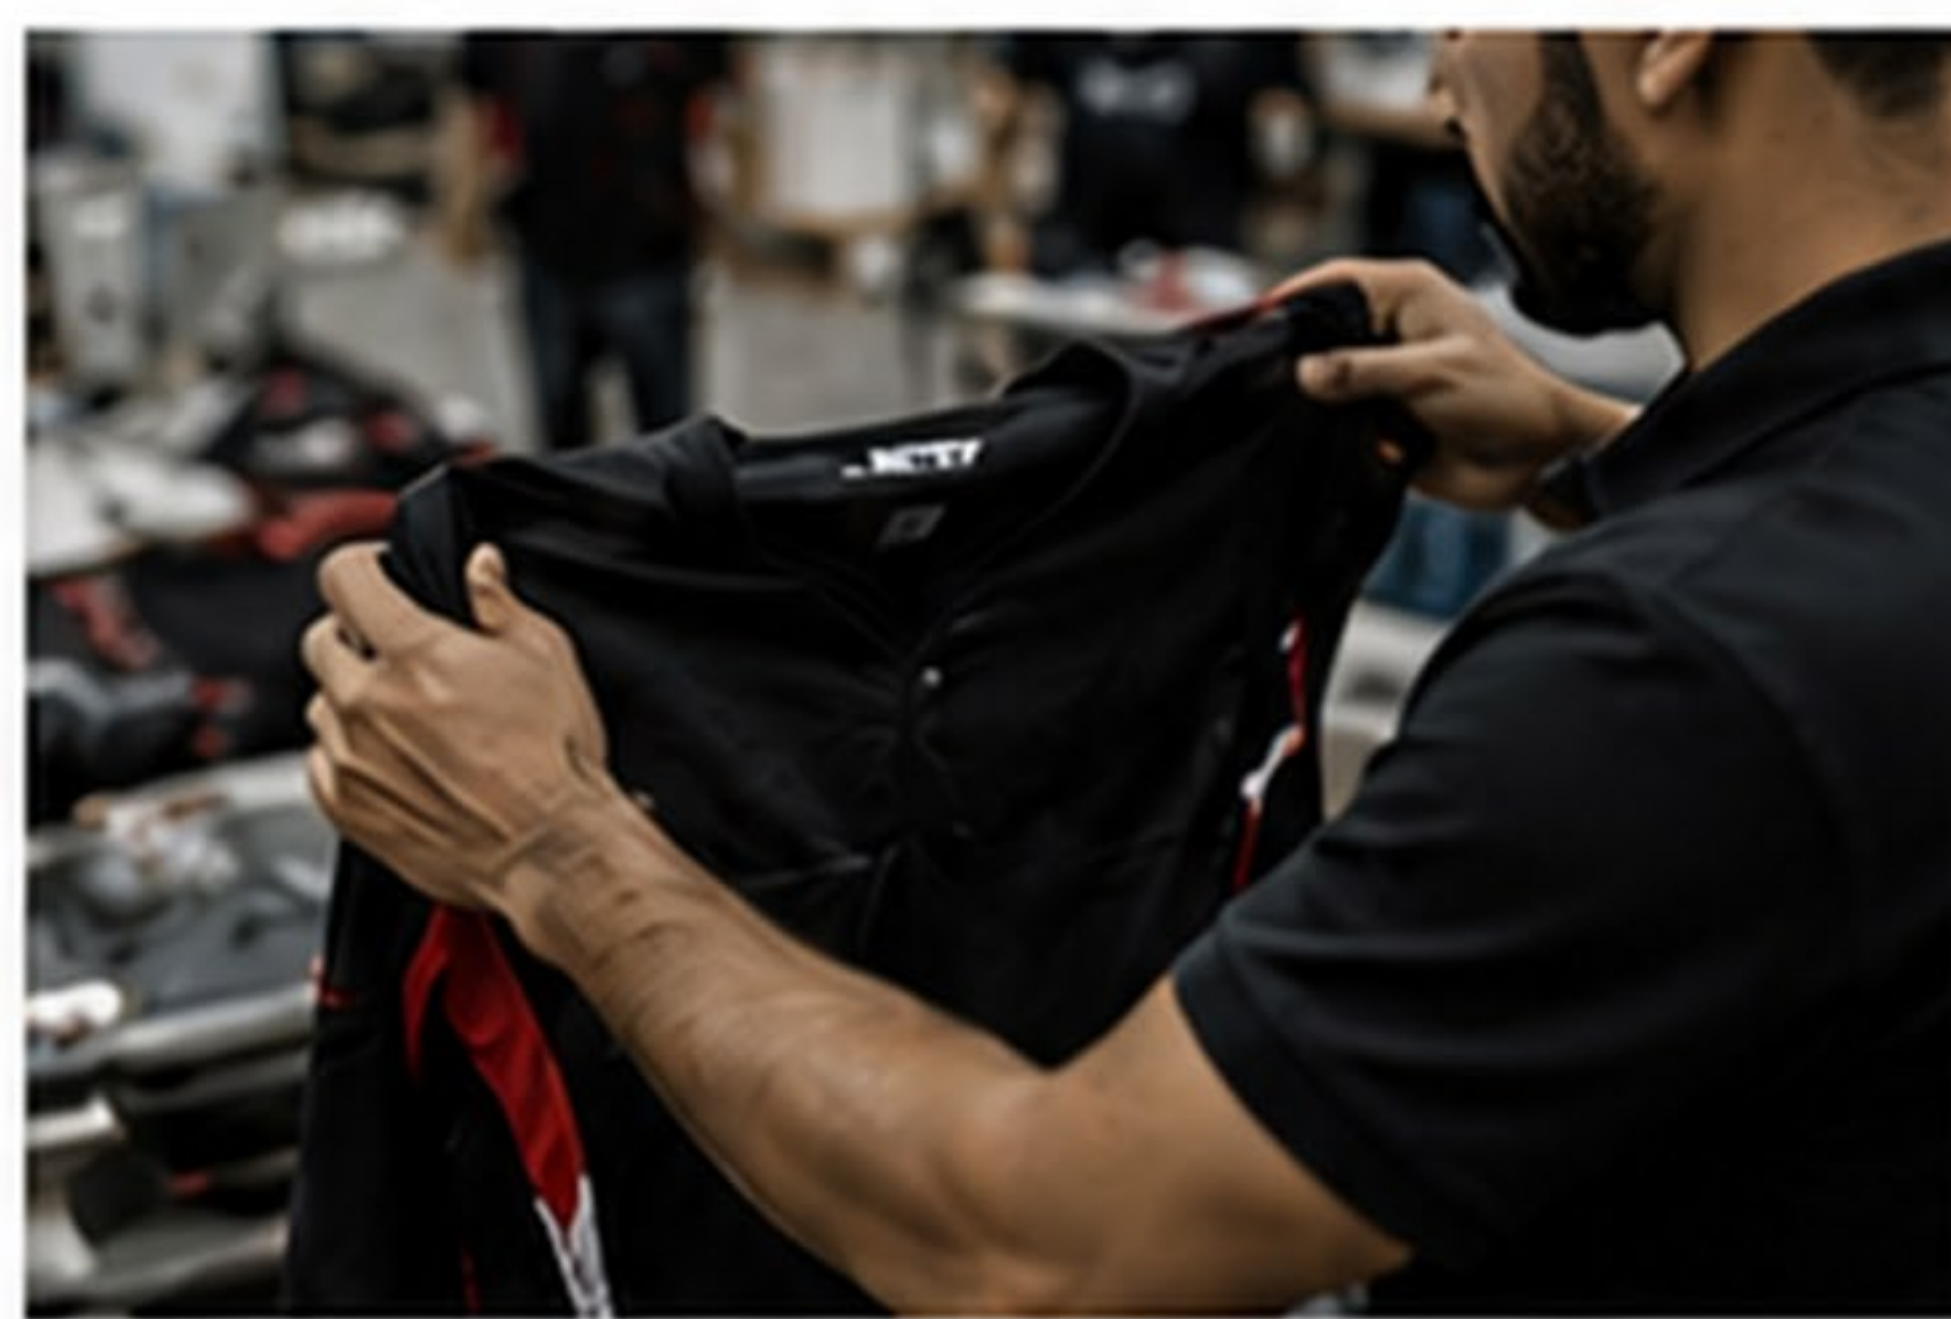

04 STITCHING

Expert stitching team uses industrial machines to ensure strong seams and long-lasting products.

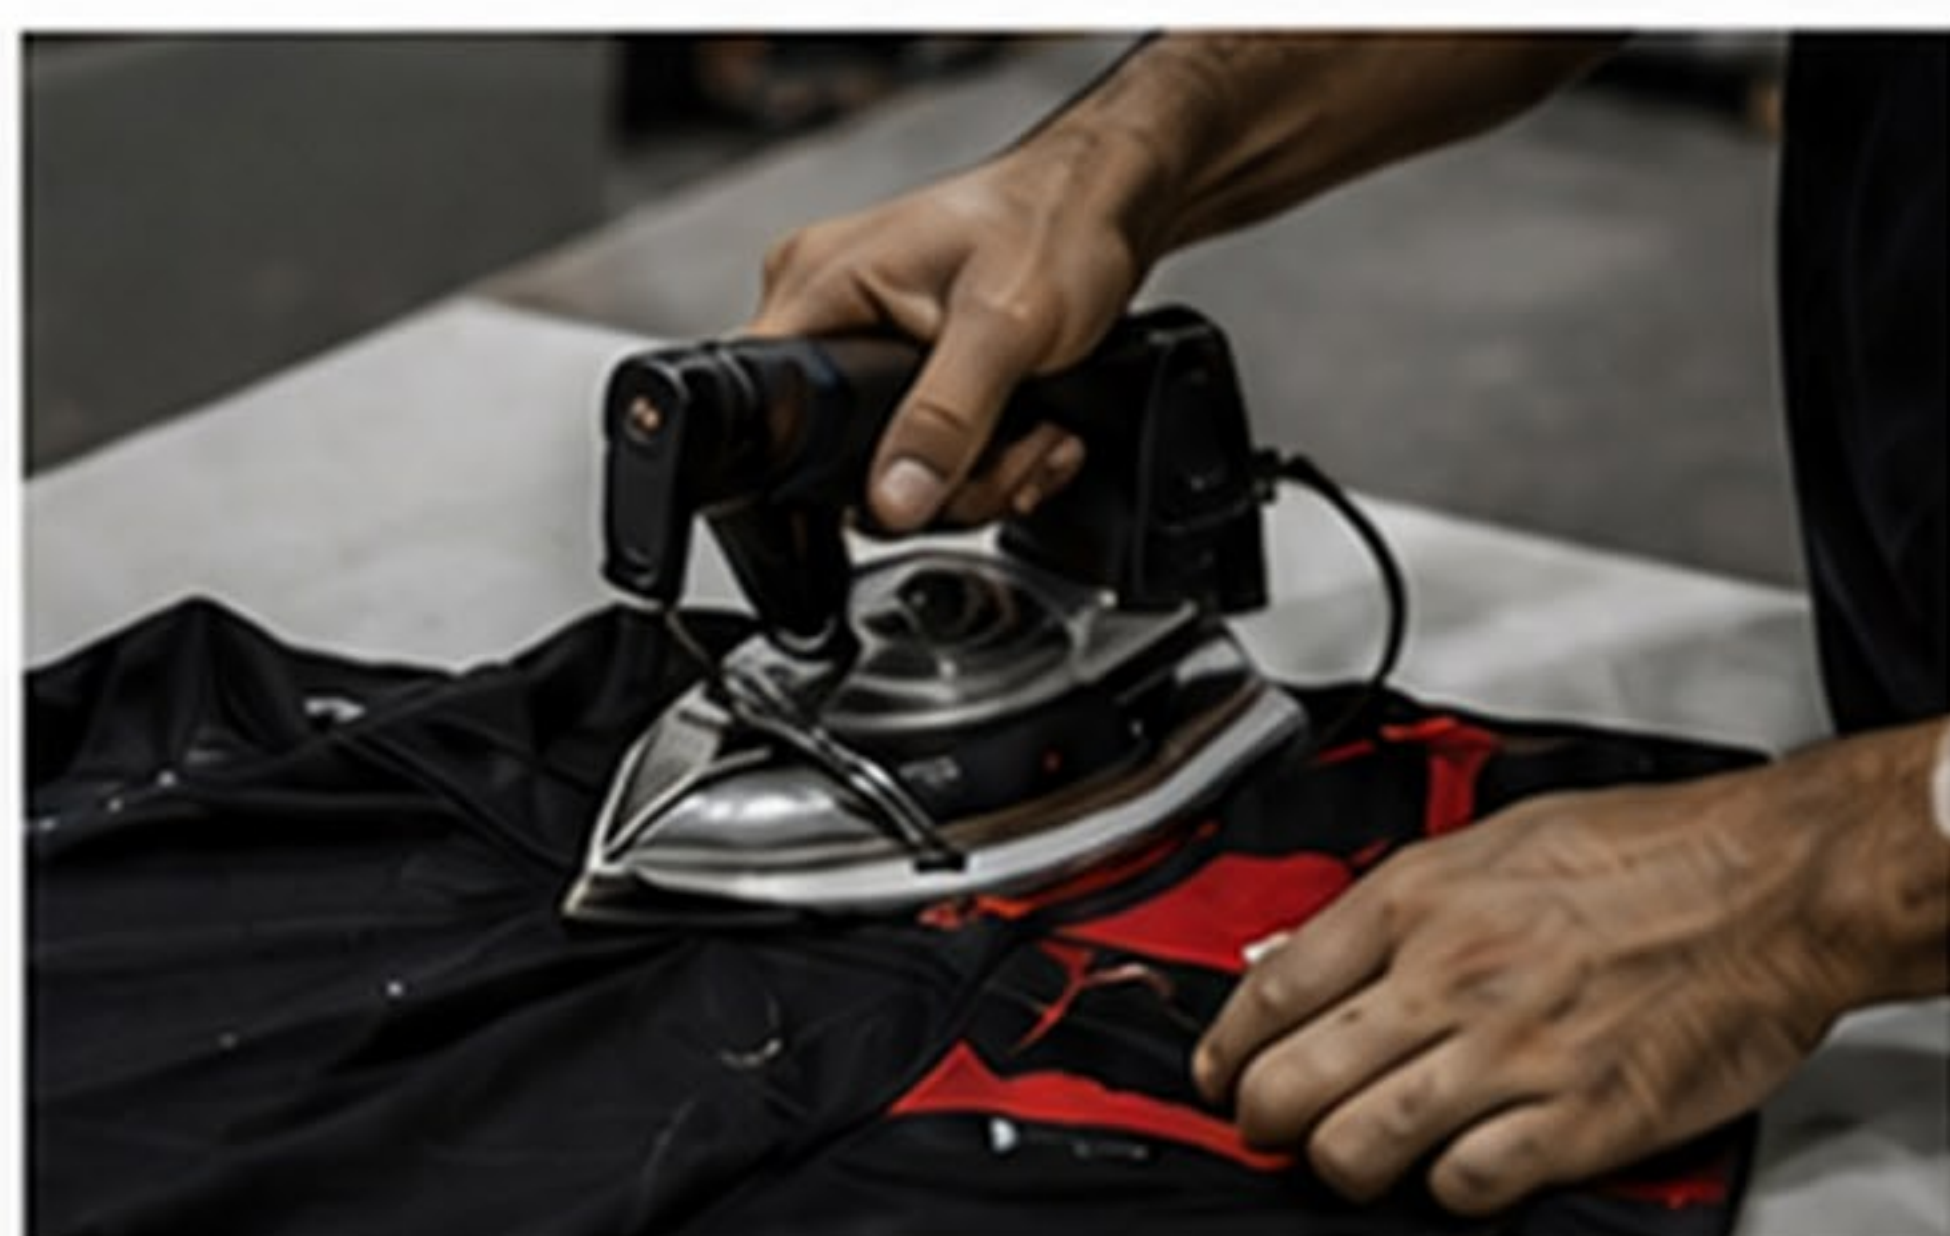

05 EMBROIDERY / PRINTING

Logos, prints, and designs are applied with precision using embroidery or printing techniques.

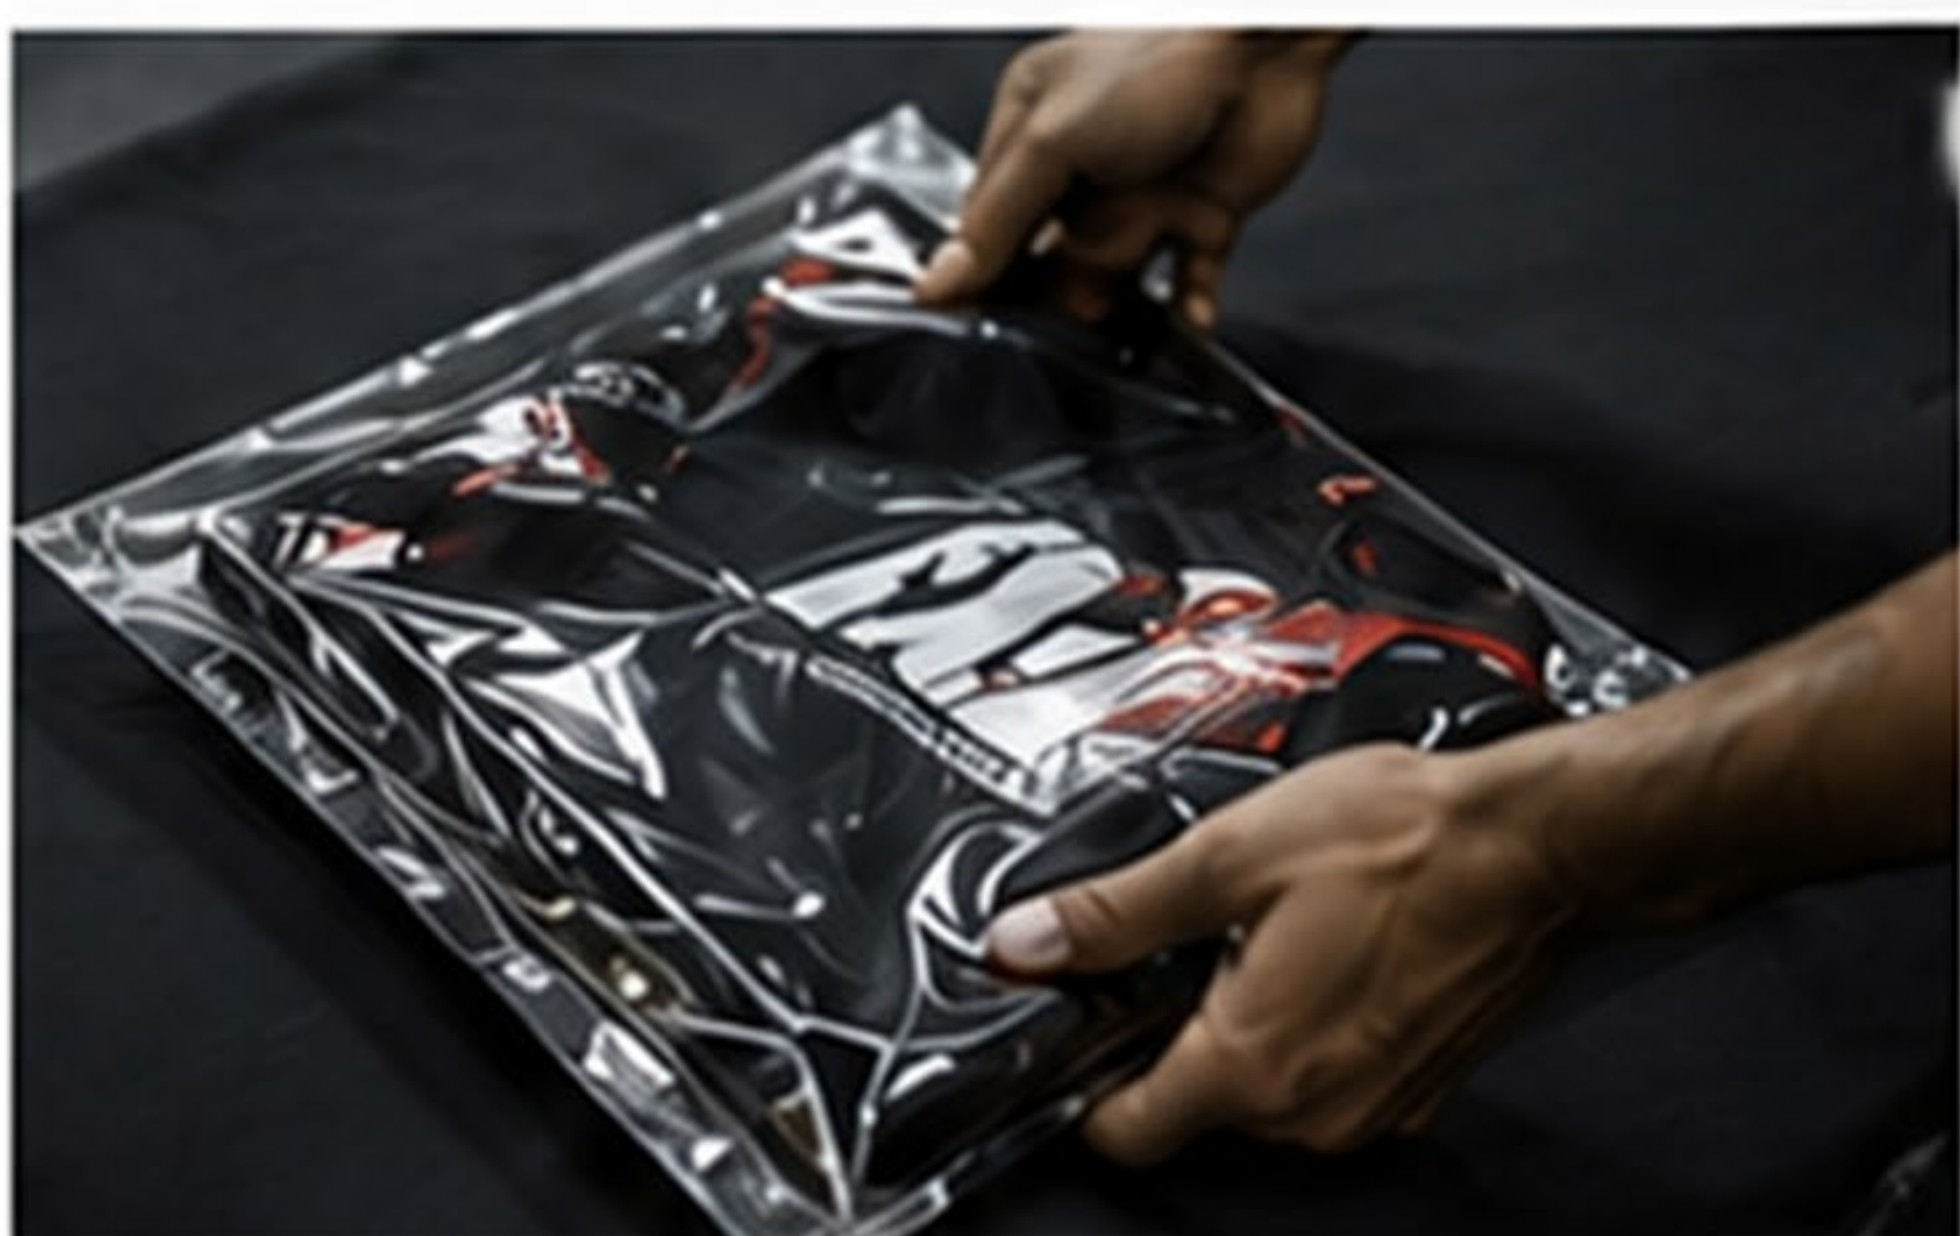

06 QUALITY CHECK

Each product is thoroughly inspected to ensure it meets our strict quality standards.

07 PRESSING

Products are pressed with care to give a professional finish and remove any creases.

08 PACKAGING

Every item is neatly packed using protective materials to ensure it arrives in perfect condition.

09 READY TO SHIP

Final products are ready for shipment, delivered on time to customers worldwide.

**QUALITY IS NOT JUST OUR STANDARD,
IT'S OUR COMMITMENT.**

From start to finish, we focus on detail, consistency, and performance.

OUR SERVICES

We provide complete customization and value-added manufacturing services to help brands create premium-quality sportswear with precision, consistency, and attention to detail.

CYCLING GLOVE

Cycling Glove ES-CG-601

- Pair of coral-red cycling or sports gloves, fingerless style.
- The gloves are a bright, almost fluorescent, coral-red color. The backs of the gloves are the coral-red fabric.
- The fingertips and part of the back of the hands are a black material with a perforated pattern, giving them a breathable quality.
- The gloves are presented in a studio shot against a plain white background, which isolates the gloves and emphasizes their colors and texture.
- The lighting is even and bright, casting no significant shadows.
- The gloves are positioned with one hand in a relaxed, open-palm orientation. The stitching on the gloves is visible, but not prominent.
- The gloves are positioned with one hand open, showing the fingers, palm, and wrist area, while the

CYCLING GLOVE ES-CG-602

- The gloves are fingerless, with a breathable mesh fabric covering the back of the hand and fingers.
- Reinforced, padded areas of dense, darker-toned material are visible on the palm and fingers, offering some protection.
- A small strap or fastener is visible on the back of each glove, near the wrist area.
- The gloves are positioned on a plain white background, clearly showing their shape, and color against the background.

CYCLING GLOVE ES-CG-603

- The gloves are black with gray and yellow accents.
- The left glove has a gray panel with a yellow design in the palm area. The right glove has a similar panel with yellow and white diagonal stripes on the back of the hand, transitioning into a white stripe on the palm area.
- Both gloves have a gray elastic strap at the wrist to secure the fit.
- The gloves are arranged in a mirrored position.

CYCLING GLOVE ES-CG-604

- The gloves are black with a teal/turquoise-colored patterned area on the back of the hand and fingers.
- The black portion of the gloves has a textured, mesh-like pattern. The teal section has a different texture and appears more perforated or patterned with small dots.
- Both gloves are positioned to show the hand-shaped palm area and the part near the wrist.
- The gloves are separated and presented

GOAL KEEPER GLOVES

GOAL KEEPER GLOVES MI-GKG-706

- The gloves are a dark, matte black color.
- The palm and finger areas of the gloves have a textured, slightly raised pattern which looks almost like a diamond or geometric design.
- The wrist area has a band of yellow/lime-colored, horizontal stripes on what appears to be a stretchy, woven, or knit material.
- The gloves appear to be made of a combination of materials, with a more stretchy, possibly neoprene or similar material on the back of the hand and parts of the fingers and a smooth leather or synthetic leather surface on the palm and the fingers.
- The gloves are laid flat, side-by-side showing both hands.
- The background is plain white

GOAL KEEPER GLOVES MI-GKG-707

- Pair of lime green goalkeeper gloves.
- The gloves have a striking design featuring orange/yellow stripes and patterns on the palm area. The back of the gloves is a solid lime green color.
- The fingers and knuckles of the glove are reinforced and slightly padded.
- The gloves have a wrist strap with a textured, slightly padded design, and a black section.
- The glove material appears to be synthetic, possibly leather-like.

GOAL KEEPER GLOVES MI-GKG-708

- Pair of goalkeeper gloves.
- The gloves are predominantly blue and orange/coral.
- The palm and back of the hand areas of both gloves are a deep blue, with a textured, dimpled pattern for grip. Orange/coral accents are present on the wrist cuffs, forming a sort of band/strap around the wrists.. The wrist cuffs are also reinforced.
- The fingers have orange/coral accents at the finger joints and edges.

GOAL KEEPER GLOVES MI-GKG-709

- Full view of a pair of bright orange and black goalkeeper gloves.
- The gloves are a predominantly vibrant orange color, with black accents and patterns. The fingers are separated, and the glove material appears to be a synthetic leather or similar durable material.
- Visible details include perforations on the fingers and palm sections of the glove for breathability and added flexibility, and black panels and stripes on the back of the hand

GOLF GLOVES

GOLF GLOVES MI-GG-810

- Full indoor shot of two white golf gloves with black accents.
- The gloves are positioned side-by-side, with one glove slightly to the left of center and the other slightly to the right. Both gloves have a white, breathable, perforated/textured material.
- Black outlining delineates the fingers and knuckles of both gloves, and the right glove shows additional black designs/patterns on the back of the hand area
- There is a small, circular metal-like fastening button on the right glove, near the index and middle fingers. The gloves are new and clean, with no visible wear or dirt. The background is a plain white.

GOLF GLOVES MI-GG-811

- Two light pink golf gloves are displayed against a white background.
- Both gloves are a similar shade of pale pink. They feature a perforated design on the upper portion of the hand, with small holes.
- A section of white fabric or material is visible on each glove, particularly around the wrist area and between the fingers. The back of the gloves exhibit a slightly textured, suede-like or similar surface. Fine stitching and seams are visible. The fingers are sculpted and separated.

GOLF GLOVES MI-GG-812

- Full indoor shot of a pair of black cycling or sport gloves.
- The gloves are a dark gray/black color with a diamond/grid pattern on the top portion of the glove. The gloves have a soft fleece lining on the inside of the wrist area. The palm and fingers have a slightly textured, but smooth material on top. The wristbands appear to be a soft, darker black fleece material. A small red band/stripe is visible around the wrist area of each glove. The gloves are positioned side-by-side.

GOLF GLOVES MI-GG-813

- Full shot of a pair of white golf gloves.
- The gloves are a light, almost white color with black accents. The black accents are most prominent on the seams and finger sections (the places where the fingers separate).
- The gloves show clearly the finger design, which are slightly tapered at the tips. The texture of the glove material appears to be a smooth leather or leather-like synthetic.
- Small perforations/holes are visible on the palm area of each glove, presumably for breathability.

MECHANICS GLOVES

MECHANICS GLOVE MI-MG-915

- **IMPACT PROTECTION** - Fingers and knuckles feature raised padding to protect against impacts
- **CUSTOM-FIT CUFF** - Hook-and-loop secured wrist enclosure gives a custom fit that keeps out debris
- **ANTI-VIBRATION PALM** - Palm is specially lined and reinforced to dampen damaging vibrations
- **FINGER CAPS** - Impact protection covers fingertips to protect against pinch injuries
- **REINFORCING PATCH** - Fabric patch on thumb-saddle reinforces that high wear area

MECHANICS GLOVE MI-MG-916

- Engineered for maximum durability, protection, and comfort, these premium leather work gloves are built to handle tough industrial tasks, mechanics, construction, and tactical applications. Combining high-grade genuine leather with flexible stretch fabric, they deliver superior grip and hand protection without sacrificing dexterity.

MECHANICS GLOVE MI-MG-917

- Engineered for optimal dexterity, shock absorption, and hand protection, these high-performance utility gloves are designed for mechanics, assembly work, light tactical applications, and general industrial tasks. Combining durable synthetic leather palms with flexible, breathable fabric backings, they provide excellent grip and reduced hand fatigue during extended wear.

MECHANICS GLOVE MI-MG-918

- Engineered for rigorous industrial conditions, heavy material handling, and outdoor work, these durable safety gloves offer maximum hand protection, warmth, and resilience. Combining high-grade beige leather with a flexible, heavy-duty black back fabric and an extended safety cuff, they provide ideal protection against abrasions, rough surfaces, and impact.

WEIGHT LIFTING GLOVES

WEIGHT LIFTING GLOVES MI-WLG-1001

- Lack fingerless workout gloves.
- The gloves are made of leather and a breathable, mesh-like material. Red stitching is visible on the back and palm of the gloves that run along the seams.
- The gloves have a flexible design, likely for better grip.
- The gloves are positioned so they are partially overlapping each other against a plain white background. The gloves appear new and clean.
- **PREMIUM LEATHER & MESH DESIGN** – Durable leather combined with breathable mesh material for maximum comfort and airflow.
- **FLEXIBLE & ERGONOMIC FIT** – Designed to adapt to your hands for a natural feel and superior grip.
- **RED REINFORCED STITCHING** – Strong red stitching on palm and back along seams for enhanced durability and style.
- **WIDE WRIST SUPPORT** – Adjustable wrist strap provides extra stability and support during heavy lifts.
- **BUILT FOR PERFORMANCE** – Ideal for weightlifting, powerlifting, cross-training, and gym workouts.

WEIGHT LIFTING GLOVES MI-WLG-1001

- The gloves are crafted from a smooth, possibly leather material, suggesting durability and style. The absence of finger coverage allows for freedom of movement, making them suitable for weightlifting, cycling, or even certain types of outdoor work.
- The structure shows reinforced stitching and padding on the palms, indicating they are made to withstand wear and provide comfort during gripping tasks. The combination of textures adds an element of visual interest.
- Wide wrist strap for added support and secure fit during heavy training.

WEIGHT LIFTING GLOVES MI-WLG-1001

- Fingerless exercise gloves are visible, positioned side-by-side.
- The glove on the left is light gray/silver with perforated patterns on the palm area. The stitching accents the glove's construction.
- The glove on the right is primarily black, with diagonal stripes of light gray/silver running across the glove's surface. A section of bright red is visible at the back of the glove's upper section. The design of this glove also includes a black wrist strap.
- Designed for better grip, comfort, and breathability during various workouts.

WEIGHT LIFTING GLOVES MI-WLG-1001

- Weightlifting gloves designed for athletic use. The glove is shown from the front, featuring its gripping surface, which has a textured design to enhance grip and control. The bright orange accents contrast sharply with the dominant black material, giving the gloves a striking appearance.
- The fingers of the gloves are fingerless, allowing for greater dexterity and breathability during intense workouts. The padding in the palm area suggests an emphasis on comfort and support.
- Perfect for weightlifting, gym workouts, and cross-training.

WINTER GLOVES

WINTER GLOVES MI-WG-1110

- Pair of gray and black winter gloves.
- The gloves are a light gray, woven fabric with black panels on the back of the hand and wrist. The fingers are separated and the palms have a slightly textured, grippy surface.
- The wrist area has a black adjustable strap with a buckle closure.
- The look suggests a waterproof or water-resistant material, suitable for use in cold or snowy conditions. The gloves seem to be designed for outdoor winter activities, given their construction and color.

WINTER GLOVES MI-WG-1111

- Full indoor shot of a pair of pinkish-rose work gloves.
- The gloves are a light, dusty rose color. One glove is positioned in a way to show the back and open hand of the glove, while the other glove is positioned to show the palm, fingers, and wrist part of the glove.
- The backs of the gloves are a slightly darker rose, almost a raspberry color. The palms and finger areas of the gloves are a light gray.
- On both gloves, black details (likely stitching and fingertip material) are visible.

WINTER GLOVES MI-WG-1112

- Pair of bright, vibrant blue neoprene gloves with black palm sections.
- The gloves are positioned facing outward, with one glove slightly angled forward of the other glove, offering a product display. The neoprene material appears smooth and supple.
- Each glove has a black fastening strap/closure at the wrist. The fingers are clearly defined and appear flexible, typical of a diving, water sports or work glove design.
- The black sections on the palms are textured, likely for enhanced grip and durability.

WINTER GLOVES MI-WG-1113

- The gloves are a soft, slightly textured fleece material.
- The fingers and palm areas have subtle, grooved lines or patterns in a light tone that are barely noticeable on the maroon purple colour.
- One glove shows a small, black adjustable strap or fastener on the wrist.
- A similarly sized, matching contrasting black piece is at the back of the glove wrist/hand seam. Both gloves are laid flat, fairly close together, displaying the overall design.
